

Can your staff **easily** access system or application support?

GE Healthcare Remote Applications Answerline provides fast and efficient remote clinical help.

Empower your staff with answers

The Remote Applications Answerline gives your staff access to GE experts for clinical, non-emergency applications assistance. Simply call 1-800-682-5327 or use the iLinq button on your console to contact GE and get access¹ to applications experts who can view your screen or acquired images (with your permission) and resolve your clinical or product questions or consult with our remote service engineers if service is required. Our applications experts have extensive knowledge on GE products backed by more than 15 years of clinical education and experience.

Contact GE experts for support regarding:

- Clinical applications
- Workflow and productivity
- Configuration help
- Data management
- Tips about image quality
- Advanced technologies

It's not business as usual. We can help.
For assistance, use the iLinq button on your console or call the Remote Applications Answerline at 1-800-682-5327.
